# PRESENTS LARGE SPACE VENTI-COOLING

[www.symphonyventicool.com](http://www.symphonyventicool.com)

## THE FINEST COOLING IN CURRENT TIMES

Cooling for Industrial and Commercial Establishments @ ₹2/ft<sup>2</sup> per month<sup>^</sup>

- Factories
  - Educational Institutes
  - Warehouses
  - Religious Places
  - Hospitals
  - Banquet Halls
  - Showrooms
  - Restaurants
  - Residences
- and many more..

MILLION+  
INSTALLATIONS

<sup>^</sup>Conditions apply.

## BEYOND COOLING: DEMOCRATIZING COMFORT

Symphony Large Space Venti-Cooling is a unique concept of air-cooling plus ventilation. A combination not offered by any other cooling technology.

One does not have to close a space to employ this cooling.

- Offers more than physical comfort • Boosts productivity
- Increases footfall • Decreases absenteeism

**LARGE SPACE COOLING**  
@ ₹ 2/ft<sup>2</sup> PER MONTH<sup>^</sup>

**ONLY ONE UNIT CAN COOL**  
UP TO 1600 SQ.FT.

**90% LESSER ELECTRICITY**  
**CONSUMPTION THAN AC SYSTEM<sup>^</sup>**

**EASY AND QUICK INSTALLATION**  
**IN JUST A COUPLE OF HOURS**

<sup>^</sup>Conditions apply.

**AS PER THE EXPERTS, A CLOSED ENVIRONMENT CAN TURN INTO A BREEDING GROUND FOR DEADLY VIRUSES. ONE MUST ALLOW SUFFICIENT VENTILATION TO MINIMIZE CHANCES OF GETTING DANGEROUS INFECTIONS.**

## ISHRAE

As per ISHRAE (Indian Society of Heating, Refrigerating and Air Conditioning Engineers)

- High relative humidity tends to neutralize any virus.
- The viruses survive longer at lower temperature. A temperature range of 24° - 30°C is safer and sufficient for human comfort.
- A constant flow of fresh air is recommended for minimizing the risks of infection preferably without recirculation of the air.

**SYMPHONY LARGE SPACE VENTI-COOLING TAKES CARE OF ALL THE MEASURES SUGGESTED BY WHO AND ISHRAE AGAINST THE VIRUSES. THEREFORE, IT IS HEALTHIER, SAFER AND AFFORDABLE COOLING OPTION SUITABLE FOR INDUSTRIAL & COMMERCIAL ESTABLISHMENTS.**

WHO recommends an increased ventilation rate through natural or mechanical means, preferably without recirculation of the air.

Worker's productivity can be enhanced up to 12% by increasing the level of thermal comfort at the workplace. Research shows that optimal range of ambient temperature for enhanced worker's productivity is about 23-30° Celsius. Improvement in productivity can be gained through establishment of cooling solution at indoor workplaces.

NASA found and reported in heat stress report CR-1205 (1) that temperature over 75°F negatively affects both productivity and accuracy of work. The following table is a summary of the relationship identified during NASA test between temperature, work output and accuracy.

Effective Temperature °F/°C						
75/24	80/27	85/29	90/32	95/35	100/38	105/41
Loss of Work Output						
3%	8%	18%	29%	45%	62%	79%
Loss in Accuracy						
0%	5%	40%	300%	700%	>700%	>700%

## VENTI-COOL 8U

Universal air cooler Cooling  
@ ₹2/sq.ft. per month<sup>^</sup>

2 Side discharge option  
**Side & Bottom**

### Features

Modular units suitable for any area.  
One unit can cool up to 500 sq.ft.\*

0.37 kW, 2 speed motor for  
powerful air delivery of 8000 CMH

Cool Flow Dispenser  
for enhanced cooling

Three side cooling pads  
for superior cooling

Weather resistant UV Stabilized  
high grade plastic body

Symphony accessories for easy and  
quick installation in a couple of hours

# VENTI-COOL 11U

Universal air cooler Cooling  
@ ₹2/sq.ft. per month<sup>^</sup>

NEW

3 Side discharge option  
**Top, Bottom & Side**

## Features

Modular units suitable for any area.  
One unit can cool up to 700 sq.ft.\*

0.45 kW, 2 speed motor for  
powerful air delivery of 11000 CMH

Cool Flow Dispenser  
for enhanced cooling

Three side cooling pads  
for superior cooling

Weather resistant UV Stabilized  
high grade plastic body

Symphony accessories for easy and  
quick installation in a couple of hours

## VENTI-COOL 20U

Universal air cooler Cooling  
@ ₹2/sq.ft. per month<sup>^</sup>

2 Side discharge option  
**Top & Bottom**

### Features

Modular units suitable for any area.  
One unit can cool up to 1200 sq.ft.\*

1.1 kW motor for powerful  
air delivery of 20000 CMH

Cool Flow Dispenser  
for enhanced cooling

Four side cooling pads  
for superior cooling

Weather resistant UV Stabilized  
high grade plastic body

Symphony accessories for easy and  
quick installation in a couple of hours

## VENTI-COOL 25U

Universal air cooler Cooling  
@ ₹2/sq.ft. per month<sup>^</sup>

2 Side discharge option  
**Top & Bottom**

### Features

Modular units suitable for any area.  
One unit can cool up to 1600 sq.ft.\*

1.5 kW motor for powerful  
air delivery of 25000 CMH

Cool Flow Dispenser  
for enhanced cooling

Four side cooling pads  
for superior cooling

Weather resistant UV Stabilized  
high grade plastic body

Symphony accessories for easy and  
quick installation in a couple of hours

# MOVICOOOL XXL

Single unit comes pre-fitted with Symphony accessories, suitable for areas up to 1500 sq.ft.\*

Cooling @ ₹2/sq.ft. per month<sup>^</sup>

## Features

1.1 kW motor for powerful air delivery of 20000 CMH

Auto swing

Cool Flow Dispenser for enhanced cooling

Weather resistant UV Stabilized high grade plastic body

Fully closable horizontal louvers

Four side cooling pads for superior cooling

Heavy duty lockable wheels for portability

# ACCESSORIES

Symphony accessories are specially designed for quick and easy installation. Any installation can be completed within a few hours!

## Features

- Weather resistant UV Stabilized engineering plastic body for long life
- Aesthetic and homogeneous looks

**ELBOW**

**END CAP**

**MOUTHPIECE**

**AIR OUTLET GRILL WITH DAMPER**

**MODULAR DUCT**

**UPPER HANGING CLAMP**

**FRONT GRILL WITH AUTO-LOUVER**

**VARIABLE SPEED CONTROLLER FOR VC20**

**PROTECTOR FOR VC20**

Note: all dimensions are in mm

**INSULATION NOT REQUIRED**

**SMOOTH AIRFLOW**

**LEAKPROOF DESIGN**

**QUICK AND EASY INSTALLATION**

# COOLING THE WORLD SINCE 1939

1939

The air cooler was invented by Goettl brothers in USA. International Metal Products Company (now IMPCO, a Symphony Group Company) was founded.

1955

International Metal Products Company de Mexico, S.A. de C.V. was established.

1988

Symphony pioneered branded air coolers in India.

1994

Symphony went public.

2000

Guinness world record for largest air cooler.

2001

Keruilai (now a Symphony Group Company) was founded in China.

2009

Symphony acquired IMPCO.

2010

Introduced Central Air Cooling Solutions + India's largest commercial air cooling project.

2015

Acquisition of Keruilai + Market value of Symphony crossed ₹11,000 crores.

2018

Symphony's acquisition of Climate Technologies-Australia and Bonaire-USA + Market value of Symphony crossed ₹15,000 crores.

2019

Introduced a range of portable commercial air coolers and world's first universal air coolers manufactured in India.

2020

Launched a range of accessories for industrial and commercial air coolers.
